Annual Report 2023-2024

DID YOU KNOW?

1

90% of all student-athletes report having some type of sports-related injury.

2

Sudden death in high school athletes happens every year. And 90% of those are caused by 1 of 4 conditions: head, heart, heat, and hemoglobin.

3

More than 60% of all catastrophic injuries in sports are caused by sudden cardiac arrest.

PlaySafe is on a mission to ensure that our student-athletes are provided with a Certified Athletic Trainer. Who, as a sports medicine specialist, has the training to respond effectively to the above-mentioned scenarios and so much more.
